

**04 Perceptual pattern + start page**

---

# **DESIGN SYSTEMS FOR DIGITAL PRODUCTS**

---

## 04 Perceptual pattern – Brand workshop

# WEB APP LOOK AND FEEL

# TASK01 Write functional statements for your start page

- List all your key functions
- Write a **functional statement** about each function to add to the start page
- Statements should not be more than one short sentence
- Describes what the function does
- Research website start pages similar to your concept or look at ready mag again. <https://readymag.com/>
- Remember the start page is scrollable!

# TASK02 Make your function descriptions emotional

---

Connect your **functional statements** with an emotional benefit for your persona, now we call them **perceptual statements**.

Using functional statements from Task 01, make them emotional, interesting, exciting, funny for the user. The resulting **perceptual statements** will be used on your start page to convince users to sign up.

The statements should be short. It might be a question. You could have a very short title and then one sentence underneath. Starting the sentence with a verb helps to shorten sentences.

Think about:

- What difference will this function make in your user's life?
- How will the user feel after the app has solved their key-problem?

# TASK03 Values and perception

Look at your **perceptual statements** and highlight the core values.  
How would you express these values?  
Use the polarity chart as a helpful tool

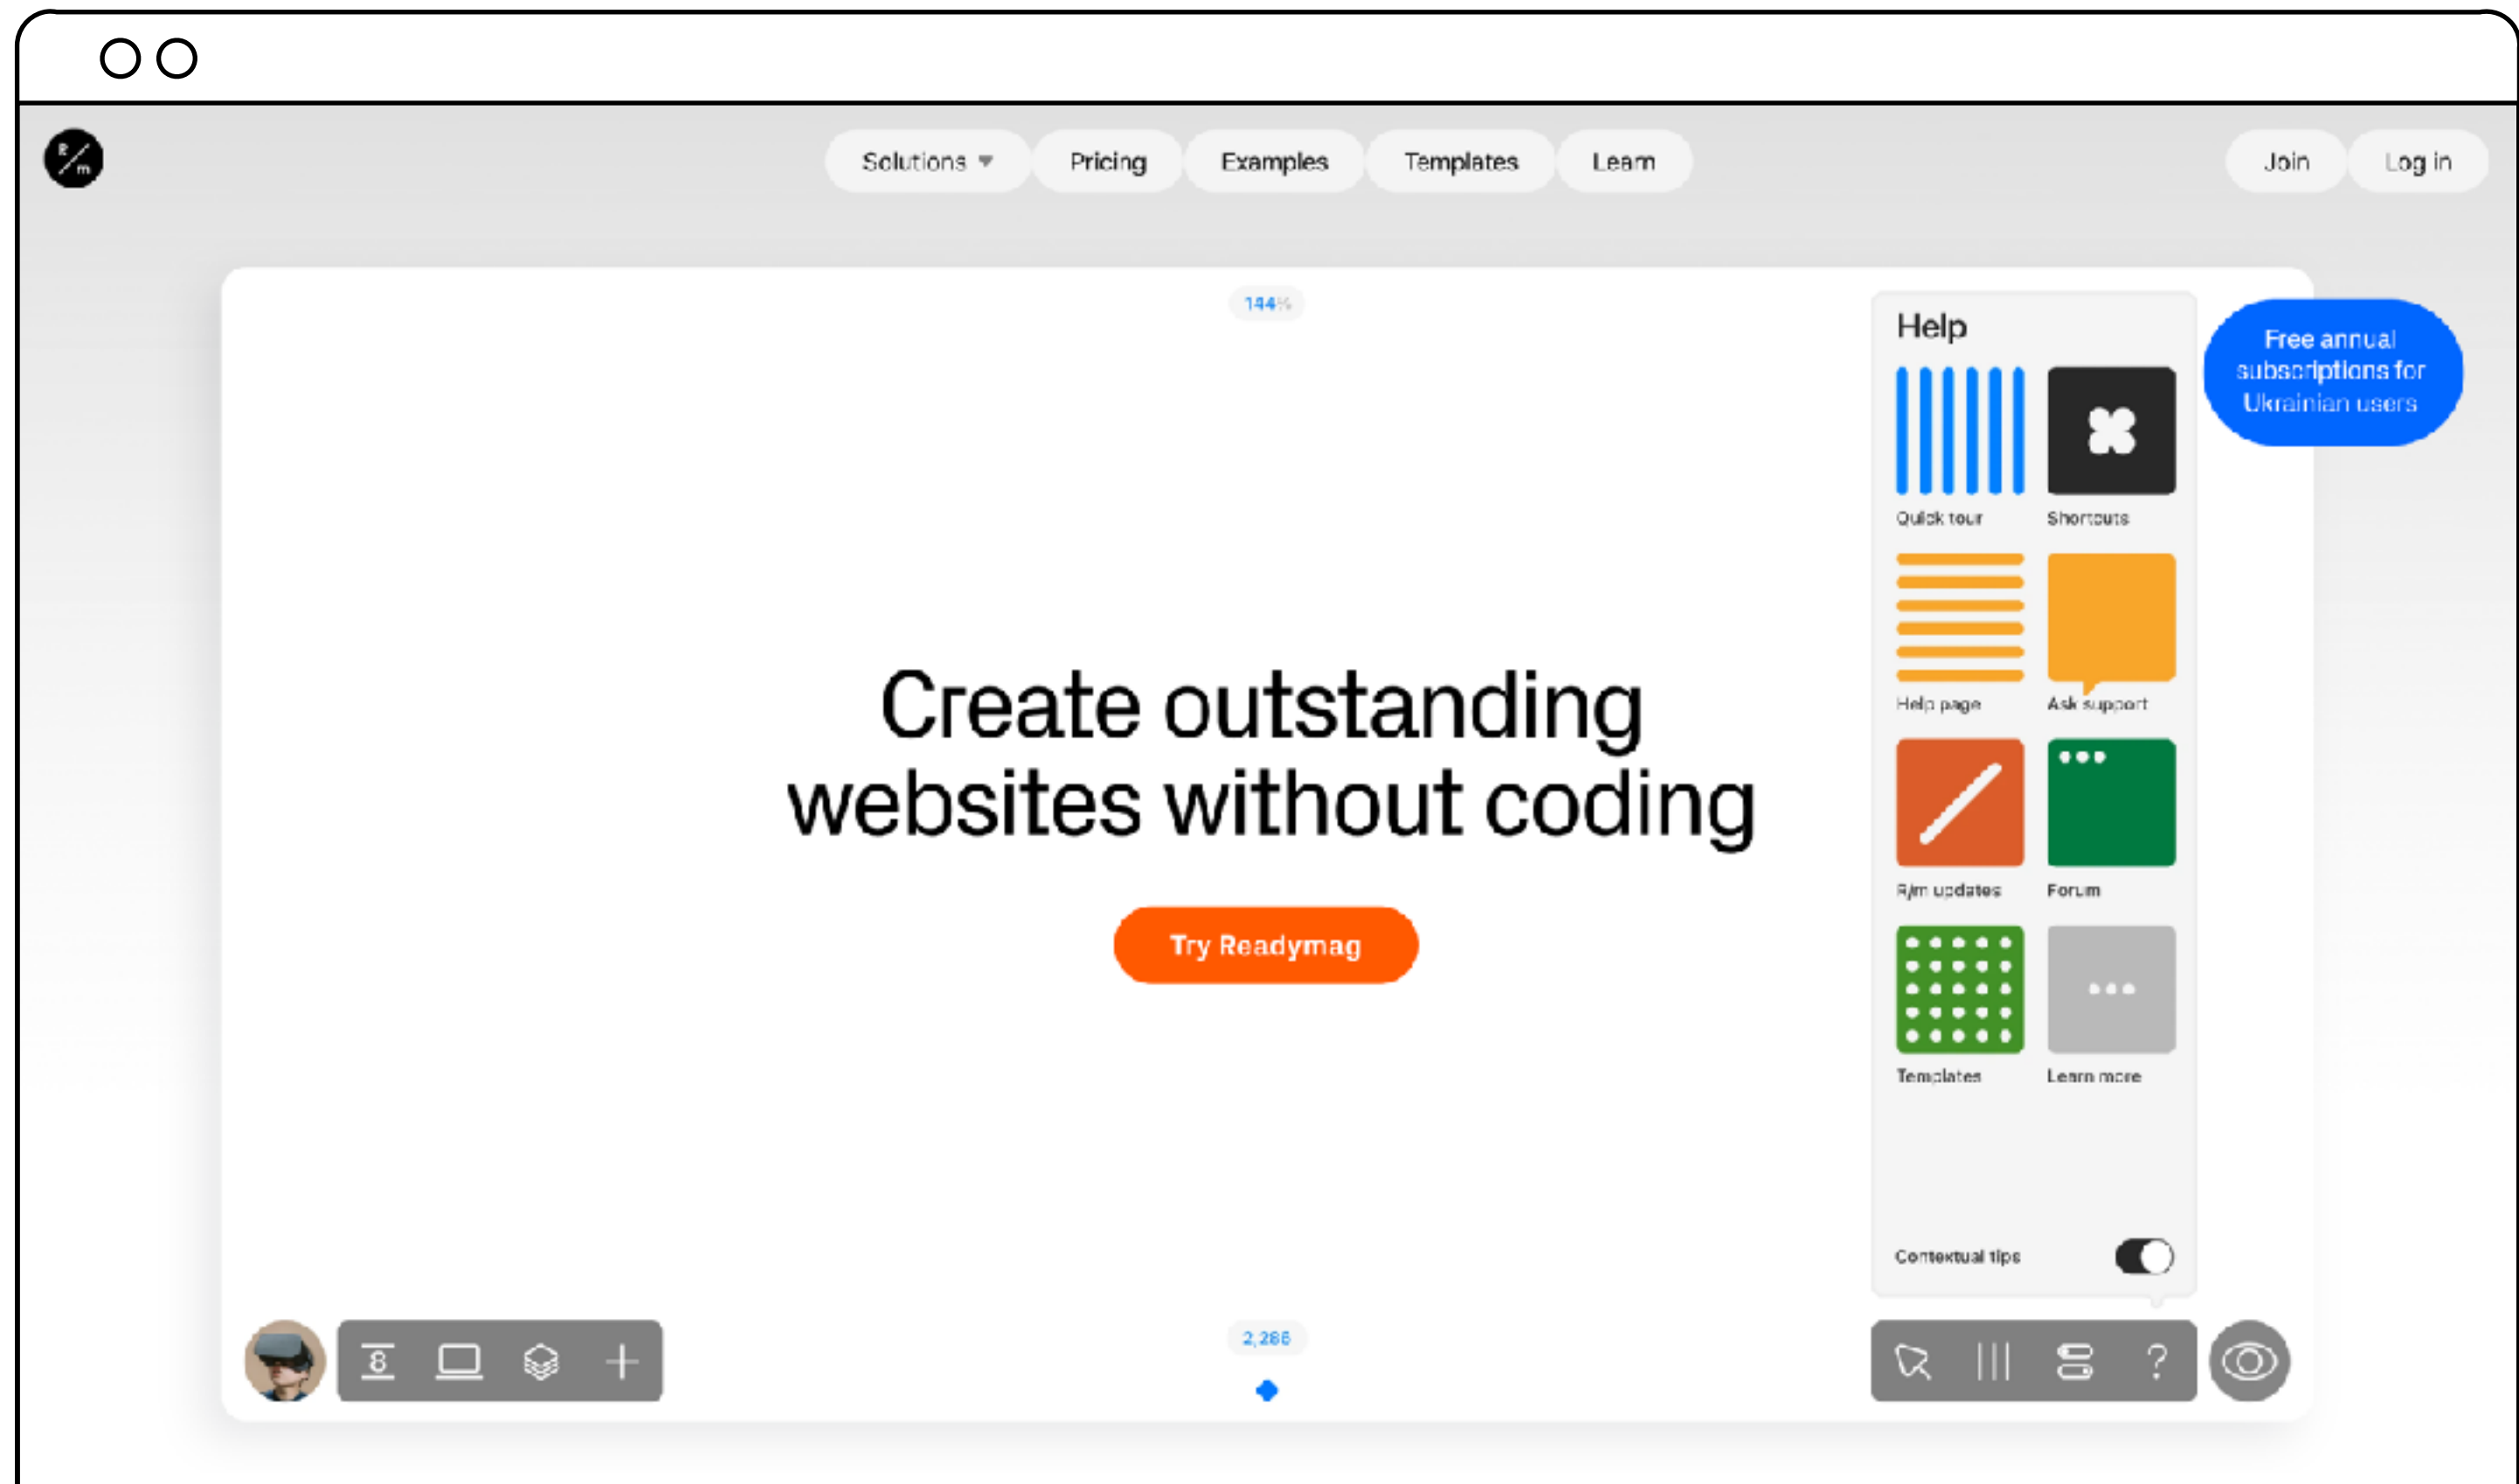

E.g. **Confident into bold**

PROGRESSIVE	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	CONSERVATIVE

# TASK 04

---

**Complete the in class tasks—add to your presentation!**

- 1. Function list**
- 2. Functional statements**
- 3. Emotional statements**
- 4. Brand values and perception**
- 5. Brand narrative**
- 6. Wireframe your static (not animated) start page in Figma**

If you want to practice animation... great go ahead but not compulsory, we will do this later

Use UI elements from material io kit as per last semester

**Start page to include:**

1. Navigation bar
2. Clear brand promise
3. Visual representation of core service/product
4. Each core function described emotionally to engage target
5. Imagery to clarify core functions and engage target
6. Imagery can be: diagrams, photography, illustration, symbols, animated (in future weeks not now)
7. Call to action (to start using the service)
8. Testimonials from users/clients to build trust in service
9. Footer

## TASK04 UI+WIREFRAME KITS

- Use a good quality wireframe kit, see links opposite from the figma community
- Use one style of wireframe kit for websites not mobile. If UI element is not available in the same kit look for it in another and restyle it to match.
- If using a different kit please share with instructor to check quality
- It is possible with convert figma plugin to convert Adobe XD wireframe kits
- Imagine presenting wireframe to a client, it must look professional and consistent. Wireframes are an efficient method to design and amend the functional pattern. When you add the perceptual pattern the design can change, but the functions work.
- Use one icon style consistently, don't forget to use material symbols figma plugin or find icons here: <https://fonts.google.com/icons?selected=Material+Icons>

# BRAND NARRATIVE EXAMPLE

Short brand statement, who we are, what we do, why do we do it, who do we do it for.

SHOWYOU

VISUAL IDENTITY SYSTEM  
AND EXECUTION GUIDELINES

03/17/2011

4

## BRAND NARRATIVE

The journey Showyou is on.  
The long form narrative is an emotive  
story capturing the brand intent.

We are not just another social platform. We are a state of mind for the over-sharing, video-content loving, smart-phone owning, social-web generation. We have created a world where – the people are in control – videos spontaneously emerge, trend, and go viral.

Showyou users are at the center of the action – watching what their friends love and sharing videos that blow their minds.

We make video a lot more social, and a lot more fun.

Let's Showyou.
